Answers and Solutions

Q:1 The correct answer is Option 2, i.e. ADEBC

Taking statement 'A' under consideration 'D' seems to show conjunction with it by stating that in a major development, India is set to launch an ambitious 'Deep Ocean Mission' which would explore minerals, energy and marine diversity in the underwater world a big portion of which remains unexplored even today.

Statement 'E' seems to be succeeding 'D' and after this 'B' seems to be preceding 'C' as 'C' provides an ending to the statement.

So, we got a sequence i.e. ADEBC, i.e. 'In a major development, India is set to launch an ambitious 'Deep Ocean Mission' which would explore minerals, energy and marine diversity in the underwater world a big portion of which remains unexplored even today. While the mission will be led by MoES, it would also involve other departments and organisations like the Defence Research and Development Organisation, Department of Biotechnology, Indian Space Research Organisation (ISRO), Council for Scientific and Industrial Research (CSIR). ISRO and DRDO will be developing some of the technologies involved.'

Q:2 The correct answer is Option 4, i.e. AEBCD

Taking statement 'A' under consideration 'E' seems to show conjunction with it by stating about Marine pollution which occurs when harmful effects result from the entry into the ocean of chemicals, particles, industrial, agricultural and residential waste, noise, or the spread of invasive organisms. Statement 'B' seems to be succeeding 'E' and after this 'C' seems to be preceding 'D' as 'D' provides an ending to the statement.

So, we got a sequence i.e. AEBCD, i.e. 'Marine pollution occurs when harmful effects result from the entry into the ocean of chemicals, particles, industrial, agricultural and residential waste, noise, or the spread of invasive organisms. Eighty percent of marine pollution comes from land. Air pollution is also a contributing factor by carrying

off iron, carbonic acid, nitrogen, silicon, sulfur, pesticides or dust particles into the ocean. Land and air pollution have proven to be harmful to marine life and its habitats. The pollution often comes from nonpoint sources such as agricultural runoff, wind-blown debris, and dust.'

Q:3 The correct answer is Option 3, i.e. ABECD

Taking statement 'A' under consideration 'B' seems to show conjunction with it by stating about Global Prevention Coalition (GPC) which is a global coalition of United Nations Member States, donors, civil society organizations which was established in the year 2017 to support global efforts to accelerate HIV prevention.

Statement 'E' seems to be succeeding 'B' and after this 'C' seems to be preceding 'D' as 'D' provides an ending to the statement.

So, we got a sequence i.e. ABECD, i.e. 'Global Prevention Coalition (GPC) is a global coalition of United Nations Member States, donors, civil society organizations which was established in the year 2017 to support global efforts to accelerate HIV prevention. It includes the 25 highest HIV burden countries, UNAIDS Cosponsors, donors, civil society and private sector organizations. It aims to strengthen and sustain political commitment for primary prevention by setting a common agenda among key policy-makers, funders and programme implementers. Recently, the Union Minister for Health and Family Welfare digitally addressed the Ministerial meeting of the Global Prevention Coalition (GPC) for Human immunodeficiency virus (HIV) Prevention.'

Q:4 The correct answer is Option 2, i.e. AEBCD

Taking statement 'A' under consideration 'E' seems to show conjunction with it by stating about Tristan da Cunha which is a remote group of volcanic islands in the south Atlantic Ocean. It is the most remote inhabited archipelago in the world.

Statement 'B' seems to be succeeding 'E' and after this 'C' seems to be preceding 'D' as 'D' provides an ending to the statement.

So, we got a sequence i.e. AEBCD, i.e. 'Tristan da Cunha is a remote group of volcanic islands in the south Atlantic Ocean. It is the most remote inhabited archipelago in the world. Tristan da Cunha is a British Overseas Territory with its own constitution. It is declared as the largest fully protected marine reserves in the Atlantic Ocean at

English

687,000 square kilometres. The mountainous archipelago Tristan da Cunha is home to tens of millions of seabirds and several unique land birds.'

Q:5 The correct answer is Option 4, i.e. ABEDC

Taking statement 'A' under consideration 'B' seems to show conjunction with it by stating about m-RNA Vaccine which is a coronavirus vaccine based on mRNA, once injected into the body, will instruct the body's cells to create copies of the spike protein.

Statement 'E' seems to be succeeding 'B' and after this 'D' seems to be preceding 'C' as 'C' provides an ending to the statement.

So, we got a sequence i.e. ABEDC, i.e. 'm-RNA Vaccine is a coronavirus vaccine based on mRNA, once injected into the body, will instruct the body's cells to create copies of the spike protein. The mRNA is coded to tell the cells to recreate the spike protein of the coronavirus SARS-CoV-2, which causes Covid-19. The mRNA vaccines have the advantage that scientists are not growing the virus in the lab, which has been a hindrance sometimes to create enough virus or viral particles to give in a vaccine.'

Q:6 The correct answer is Option 2, i.e. ABDCE

Taking statement 'A' under consideration 'B' seems to show conjunction with it by stating about UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of international geological significance are managed with a holistic concept of protection, education and sustainable development.

Statement 'D' seems to be succeeding 'B' and after this 'C' seems to be preceding 'E' as 'E' provides an ending to the statement.

So, we got a sequence i.e. ABDCE, i.e. 'UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of international geological significance are managed with a holistic concept of protection, education and sustainable development. A UNESCO Global Geopark uses its geological heritage, in connection with all other aspects of the area's natural and cultural heritage, to enhance awareness and understanding of key issues. A UNESCO Global Geopark is given this designation for a period of four years after which the functioning and quality of each UNESCO Global Geopark is thoroughly re-examined during a revalidation process.'

Q:7 The correct answer is Option 4, i.e. AEBCD

Taking statement 'A' under consideration 'E' seems to show conjunction with it by stating that water is the basic necessity of every human being. But, water scarcity is a major issue that is rising very rapidly in modern-day India.

Statement 'B' seems to be succeeding 'E' and after this 'C' seems to be preceding 'D' as 'D' provides an ending to the statement.

So, we got a sequence i.e. AEBCD, i.e. 'Water is the basic necessity of every human being. But, water scarcity is a major issue that is rising very rapidly in modern-day India. The problem has become so severe that in many states the groundwater has almost dried up and people have to depend on water supply from other sources. In addition, water is one of the most misused commodities that we still waste. It is the central point of our lives but not the central point of our focus.'

Q:8 The correct answer is option 3 i.e. ABEDC.

Taking part 'A' as fixed, Part 'B' seems to be succeeding in this specific statement by showing conjunction. Part 'E' which follows Part 'B' seems to portray conjunction with the second statement by stating how students can be safely assessed by taking up online examinations.

Further, among the remaining parts, part 'D' seems to precede 'C' as part 'C' seems to end the statement which talks about conducting any type of examinations in a secure manner online while showing conjunction with part 'D'.

So, we got a sequence i.e. ABEDC and the correct formation of the statement will be 'Now, imagine a technology that tracks and provides ease in handling current and future applications. An advanced online solution with artificial intelligence and cloud computing coupled with its democratic ability making admissions safe, while assessing students online by conducting secure, scalable, and affordable online entrance and semester-end examinations. Today, educational institutions are constantly in search of a powerful solution in time to innovate, focus, realign and respond to the new normal that helps the delivery of any type of examinations in a secure manner with online remote or auto proctored exam solutions'.

Hence, the chosen option is correct.

Q:9 The correct answer is option 3, i.e. ADBEC

Date : 18th Dec 2023

English Language – Sentence Rearrangement

English

Taking part 'A' as fixed, Part 'D' seems to be succeeding this specific statement by showing conjunction. Part 'B' seems to portray conjunction with the second statement by stating about further information on how the government is exploring other options of raising resources.

Further, among the remaining parts 'E' and 'C', 'E' seems to precede 'C' as part 'C' seems to end the statement while showing conjunction with part 'E'. So, we got a sequence i.e. ADBEC and the correct formation of the statement will be 'The slowdown in economic activities has taken an increasing toll on government finances. While the pace of contraction in revenue collection appears to be slowing down – the central government's gross tax collections were down 37 per cent in May, after contracting by 44 per cent in April – the Centre will face a huge shortfall in both direct and indirect tax collections this year. With non-tax revenue also likely to be under pressure this year – revenue accruing from both dividends and telecom fee is unlikely to meet budget expectations – indications that the government is exploring other options of raising resources, including the sale of its stakes in various public sector companies, are welcome'.

Q:10 The correct answer is option 4 i.e. EDBC

The correct possible order of the sentences is 'EDBC'

Point 'E' seems to be the first sentence after the opening line because it represents a continuation with the introduction of the topic 'evolution in technology' in the first line.

Point 'D' seems to be the second sentence after 'E' as it talks about how technology will stagger continuously without worrying much about the future.

Point 'B' represents the third sentence as it lacks of people's perspective in context to the previous statement.

The last sentence remains 'C' which is in a similar context as that of the previous one.
