Answer Key

1. (3)	**2.** (1)	**3.** (4)	**4.** (2)	**5.** (4)
6. (4)	**7.** (2)	**8.** (3)	**9.** (4)	**10.** (3)

Answers and Solutions

Q:1 The correct answer is **Option 3,** i.e. **C.**

The logic which follows here is:
In all the figures there are two lines, except in figure C, which has three lines in it.
Hence, **Option 3** is the correct answer.

Q:2 The correct answer is **option 1** i.e. **18 : 306**
Let us see all the options:
$(18)^2 - 18 = 306$
$(25)^2 + 25 = 650$
$(23)^2 + 23 = 552$
$(13)^2 + 13 = 182$

Q:3 The correct answer is **option 4** i.e. **D6V14**
Let us see all the options:
1) A5Z15 - A is the first letter from left and Z is the first letter from right in English alphabetical order; 5 + 15 = 20
2) C9X11 - C is the third letter from left and X is the third letter from right in English alphabetical order; 9 + 11 = 20
3) F12U8 - F is the sixth letter from left and U is the sixth letter from the right in English alphabetical order; 12 + 8 = 20
4) D6V14 - **D is the fourth letter from left, whereas V is the fifth letter from the right** in English alphabetical order; 6 + 14 = 20
Hence option 4 is the odd one

Q:4 The correct answer is **Option 2** i.e. **B**
Except for Figure B, all other figures are divided in 4 parts.
Hence, the correct answer is **B.**

Q:5 The correct answer is **Option 4** i.e. **BCDF**
1) LMOQ - L + 1 = M, M + 2 = O, O + 2 = Q
2) EFHJ - E + 1 = F, F + 2 = H H + 2 = J

3) VWYA - V + 1 = W, W + 2 = Y, Y + 2 = A
4) BCDF - B + 1 = C, C + 1 = D, D + 2 = F
Hence the correct answer is **BCDF.**

Q:6 The correct answer is **Option 4** i.e. **HATCH**
Logic: The word will have 2 vowels
Except for HATCH rest, all words are consisting 2 vowels one at the second position and another one at the last.
So, HATCH is odd from the above options.
Hence, the correct answer is **HATCH.**

Q:7 The correct answer is **Option 2** i.e. **2.**
Except in Figure (2), in all other figures the design or shape has been divided vertically.
Hence, the correct answer is **2.**

Q:8 The correct answer is **Option 3** i.e. **9, 78**
Logic:
Second number = Square of the first number - 5
$8^2 = 64 - 5 = 59$
$6^2 = 36 - 5 = 31$
$9^2 = 81 - 5 = 76 \neq 78$
$7^2 = 49 - 5 = 44$
Clearly, Option 3 is the odd one.
Hence, the correct answer is **9, 78**.

Q:9 The correct answer is **Option 4** i.e. **Identified**
Anonymous: (used about a person) whose name is not known or made public
Innominate: not named or classified
Incognito: hiding your real name and identity (especially if you are famous and do not want to be recognized)
Anonymous, Innominate, and Incognito are synonyms.
They mean something/someone that is hidden or not known.
On the other hand, Identified means something/someone that is known.
Hence, the correct answer is **Identified.**

Q:10 The correct answer is **Option 3** i.e. **Marble**
Except for Marble, all others are precious stones.
So, **Marble** is the odd one out.
Hence, the correct answer is **Marble**.
