SSC CGL 2023 Marking Scheme

As is clear from our exam pattern segment, we have 200 questions in Tier 1, and each subject consists of 25 questions with a weightage of 50 marks. But one thing that you must remember is that for every wrong answer there is a penalty of 0.5 marks. This marking scheme is constant for both Tier 1 and Tier 2 examination. Also, all the questions will be provided in both Hindi and English with English Language section being an obvious exclusion.

SSC CGL 2023 Marks Normalization

Let us first begin with understanding what marks normalization actually is. Well, it is a statistical technique that takes into account any differences in the degree of difficulty of the question papers across different shifts of the same exam. Direct score comparison may not be fair because the complexity of the questions between shifts can change. Thus, normalization resolves this problem by bringing the scores into parity, allowing for a more fair assessment of candidates.

Thus, back in 2019, the Staff Selection Commission published the formula in **Notice No.1-1/2018-P&P-I dated 07-02-2019**, which is being followed ever since. Subsequently, these normalized scores are utilized to determine the final merit and cut-off marks.
